New Jersey Academy of Facial Plastic and Reconstructive Surgery

Since starting his highly successful West Orange practice in 1993, Dr. Todd A. Morrow's excellence in facial plastic surgery has consistently inspired the loyalty, respect and trust of patients and colleagues. A founding partner of Associates in Otolaryngology of New Jersey, Dr. Morrow has provided an unparalleled level of care to his patients.

Double-board certified, Dr. Morrow specializes in cosmetic nasal and ear surgery; injectables (Botox, dermal fillers); facial reconstruction (scar revisions, reconstruction of skin cancer defects and facial fractures); laser and endoscopic procedures; and surgical facial rejuvenation (facelifts, eye and browlifts). In addition, a personalized medical skin care program is established for each patient with the help of his licensed and certified aesthetician.

For patients' convenience, comfort and safety, surgery is performed at a private ambulatory surgery center. Dr. Morrow performs all procedures and injectable treatments himself, providing outcomes that are consistently outstanding. He uses computer imaging to show anticipated results to patients, which helps reduce

their anxiety and ensure realistic expectations.

Dr. Morrow has continuously been rated among the top doctors in the New Jersey/New York metropolitan area. In an ongoing effort to obtain optimal results for his patients in the safest manner possible, Dr. Morrow stays current on the latest techniques and technology within his field.

In collaboration with the American Academy of Facial Plastic and Reconstructive Surgery's humanitarian program, FACE TO FACE, Dr. Morrow provides free care to victims of domestic violence and veterans who have sustained facial injuries.

Dr. Morrow measures his success by the quality of his work rather than the quantity. "I consider it a great privilege when a patient places his/her trust in my hands," he says. "I am proud and extremely grateful to have been given the opportunity to create such change in the lives of so many during my career."

Dr. Morrow's honest and caring approach has benefited thousands of patients, empowering each one to **face tomorrow** with renewed confidence.
